OBJECTIVE

I'm looking for full time work in the role of Developer, UX Engineer, or Datacenter Technician in the IT and telecommunications industry.

PERSONAL STATEMENT

On the Internet, one man can easily build a community and change the way many people see the world. Providing this generation reliable access to an uninhibited and wild Internet will give them a thirst for freedom that society will come to reflect in our lifetime.

WORK HISTORY

1776 Solutions, LLC

Cheyenne, Wyoming, United States
Jan 2018 - Present

● Managing Member

A small LLC I run by myself. I use my own hardware and Internet NIC assignments to lease virtual private servers (KVM) to clients. I emphasize content neutrality in my acceptable use policies.

- Business Management
- Datacenter Technician
- Networking
- Virtualization
- NIC Resource Management

Infinity Next Development Group

Manila, Republic of the Philippines
Apr 2015 - Jan 2016

● Project Lead

While living abroad with community leaders, I crowdfunded $12,000 to develop a free, open-source project for their users.

- Crowdfunding
- Project Management
- Git Repository Management
- Development
- Design

Astute Payroll

Melbourne, Australia
Sep 2011 - Jan 2015

Full-Stack Developer

From the age of 18 to 23, I worked with Astute Payroll remotely, helping build the company from a 5-man timesheet startup to a regional payroll powerhouse employing almost 30 people.

- Database Design
- PHP Development
- Design Implementation & UX
- JavaScript & Old Browser Compatibility (IE6)

QUALIFICATIONS

Northwest Florida State College

Niceville, Florida, United States
2018

General Education A.A.

TECHNICAL SKILLS

- Debian 7+ & forks
- Laravel 5.0+ (PHP Framework)
- MariaDB / MySQL
- PostgreSQL
- Adept at Adobe Photoshop, Microsoft Office, and other popular office software

- PHP 5.6 & 7.x & HHVM
- nginx / Apache
- FreeBSD
- Unity3D & C#

PERSONAL SKILLS

Product Ownership

I don't work for money, I work to build something. Flaws in the product are a personal responsibility.

UX

If I don't like using a feature on a website or app, the end user wont either. I fix design issues autonomously because I have high standards.

Fast Learner

I have a voracious appetite for technology. Every job worth doing teaches you something.

Works Well Under Pressure

I sweat the small stuff and find zen when it hits the fan. I'm at my best when there are serious stakes and time-sensitive problems.

INTERESTS

- Mandarin & Chinese Culture (中文和中国文化)

- Cryptocurrencies & Skycoin ($SKY) especially
- Law

- International web accessibility and web accessibility for those with disabilities
- Freedom of Speech and Freedom of Expression

REFEREES

Referees available on request.
